

## Nature trail

Our nature trail is home to peregrine falcons and kestrels and numerous bird and bat boxes have been sited to preserve and benefit the bird population.

## Educational visits

We're used to dealing with students of all ages - from infants and primary school pupils to graduates and post graduates! Call us for more information on our national curriculum-based educational projects.

## Organised groups

Group visits and coach parties are most welcome here at Oldbury - please ring first! There is ample parking space for coaches.

## power station

A nuclear power-packed day out! Come to Oldbury power station and see for yourself how electricity is made.

### Visitor centre

You'll be welcomed to Oldbury by TV personality Peter Davison in the multi-media Power House show - he'll tell you the story of nuclear power from the design and construction of a power station, to decommissioning and waste disposal. You can explore the world of nuclear energy in our high-tech, hands-on centre and test your grasp of nuclear know-how in an interactive quiz... you won't be faced with a barrage of jargon!

# A Great Day Out...!

### The tour

And then it's on with your hard hat and off on the Big Tour! Take a look at a working power station - you'll get right inside the massive turbine hall, you'll overlook the reactors

### Outdoor fun

Oldbury, only a few miles from the Severn Bridge, is the ideal place for a break between Bristol and Gloucester. Places like Berkeley Castle and Slimbridge Wildfowl and Wetlands Trust are just a stone's throw away.

themselves and there's even a chance to see the nerve centre of the whole station, the control room.
